

Rate Changes to Maryland Residential Customer Bills

Effective June 1, 2008, Delmarva Power's supply rates have increased based on a schedule approved by the Maryland Public Service Commission (MDPSC). The new rates will increase the typical residential customer's bill by about 2.7%, or \$4.32, a month. Delmarva Power used a competitive bidding process under the regulatory oversight of the MDPSC to purchase power on behalf of its Maryland customers and the supply prices have been reset based on the lowest bids.

Additionally, effective June 16, 2008, distribution rates decreased as a result of a final rate adjustment approved by the MD PSC in Delmarva Power's distribution rate case. The new distribution rates will decrease the typical residential customer bill by about 0.6%, or \$1.00, a month.
